Trade-marks Journal

Vol. 63 No. 3219

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Trademark Description
The trade-mark consists of a two-dimensional colouring applied to the visible surface of the particular coat for dogs shown in the drawing. The dotted black outline of the dog coat is presented for illustrative purposes only and does not form a part of the trade-mark other than to provide context for how the colouring is specifically applied to the goods. The trade-mark consists of the colours white and black as applied to the goods as follows: white trim applied at the collar and rear of the jacket represented in white; and, black applied at the back portion represented by the darkest grey. No particular colour or colours are claimed with respect to the light grey area in the drawing. However, as a restriction on the general use of the trade-mark, the light grey portion of the trade-mark is restricted to monotones. The drawing illustrates two angles of the trade-mark: One from the front and one from the side. The labels "Front View" and "Side View" do not form a part of the trade-mark in any manner and are for identification purposes only. For further clarity, no other elements or aspects of the drawing, other than those outlined above, form a part of or restriction to use of the trade-mark.

Trademark Description

The trademark consists of the colour red as applied to the whole visible surface of the particular bottle cap as shown in the drawing. The trademark also consists of a two-dimensional label applied to the neck of the bottle. The colours gold, black, red and green are claimed as a feature of the mark insofar as they appear on the two-dimensional label. In particular, the background of the label is red. The centre of the label contains a black circle, within which there is the image of a red strawberry. The words 'APPLE CIDERS RED BERRIES' centered below the circle are black. The trademark also consists of a two-dimensional label applied to the middle of the bottle. The colours gold, black, red and green are claimed as a feature of the mark insofar as they appear on the two-dimensional label. In particular, the stylized silhouette of a person drawing a bow centred at the top of the label is gold. The background of the label is black, save for the upper right corner, occupying approximately one quarter of the label, which is red and green in colour, and delineated from the remainder of the label by a bow-shaped line. The bow-shaped line is the top of a shadow print design which is the enlarged reflection of the head, arm and drawn bow of the stylized person silhouette; the shadow print design begins centered at the bottom of the label and extends up toward the top right of the label. The word 'STRONGBOW' is centered below the gold silhouette. The words 'APPLE CIDERS' centered below the word 'STRONGBOW' are red. The words 'RED BERRIES' centered below the words 'APPLE CIDERS' are red. The bottle shown in dotted outline does not form part of the mark and is used to show the positioning of the mark upon the bottle.

The trademark also consists of a two-dimensional label applied to the neck of the bottle. The colours gold and black are claimed as a feature of the mark insofar as they appear on the two-dimensional label. In particular, the background of the label is gold. The centre of the label contains a black circle, within which there is the image of a black and gold bee. The words 'APPLE CIDERS HONEY' centered below the circle are black. The trademark also consists of a two-dimensional label applied to the middle of the bottle. The colours black and gold are claimed as a feature of the mark insofar as they appear on the two-dimensional label. In particular, the stylized silhouette of a person drawing a bow centred at the top of the label is gold. The background of the label is black, save for the upper right corner, occupying approximately one quarter of the label, which is gold in colour, and delineated from the remainder of the label by a bow-shaped line. The bow-shaped line is the top of a shadow print design which is the enlarged reflection of the head, arm and drawn bow of the stylized person silhouette; the shadow print design begins centered at the bottom of the label and extends up toward the top right of the label. The word 'STRONGBOW' is centered below the gold silhouette. The words 'APPLE CIDERS' centered below the word 'STRONGBOW' are gold. The word 'HONEY' centered below the words ' APPLE CIDERS' is gold. The bottle shown in dotted outline does not form part of the mark and is used to show the positioning of the mark upon the bottle.

GOODS

(1) Chemical preparations for scientific, laboratory, medical laboratory and research purposes in the nature of clearing agents for histology and cytology; chemical diagnostic preparations for use in scientific research, namely tissue diagnosis of diseases; chemicals for use in histological and cytological tissue processing; chemical reagents for clinical laboratory use; diagnostic reagents for medical research purposes; diagnostic preparations containing antibodies for scientific and laboratory use; none of the foregoing being for medical and veterinary use; histology and cytology reagents and stains for preparation of pathology tissue specimens for research purposes.

(2) Histology and cytology reagents and stains for preparation of pathology tissue specimens for medical purposes; pharmaceutical preparations, namely, pharmaceutical preparations for histological and cytological tissue processing applications; diagnostic preparations in the nature of antibodies for medical and veterinary purposes; diagnostic reagents for medical and veterinary use; in situ hybridisation probes; diagnostic preparations in the nature of epitope retrieval solutions for medical and veterinary purposes; enzymes and enzyme preparations for medical and diagnostic purposes; histological dye and stain solutions; double, triple and multiple immunohistochemical reagents for staining, for medical use; diagnostic preparations in the nature of double in situ hybridization application of multiple antibodies and probes in the same staining procedure to a tissue section during immunohistochemistry staining, for medical and veterinary purposes; diagnostic preparations in the nature of triple in situ hybridization application of multiple antibodies and probes in the same staining procedure to a tissue section during immunohistochemistry staining, for medical and veterinary purposes; diagnostic preparations in the nature of multiple in situ hybridization application of multiple antibodies and probes in the same staining procedure to a tissue section during immunohistochemistry staining, for medical and veterinary purposes; all the aforesaid goods for medical, research and veterinary purposes; kits for processing, embedding and staining histological tissues.

(3) Computer operated automation systems for laboratory instruments; laboratory instruments for specimen preparation; automated immunostainers; tissue processors; haematology slide makers and stainers; clinical chemistry instruments; random access clinical chemistry analysers; immunoassay clinical analysers; histopathology instruments, tissue processors and haematology instruments used in scientific research; laboratory devices for histology and cytology, namely coverslipping machines for slides, tissue infiltration devices, tissue embedding machines, staining machines, staining machines with immunological responses; multiwell plates for use in chemical analysis and laboratory and medical research use; cryostats; cryomacrotomes; automatic slide scanners; laboratory equipment and supplies for collecting, preparing, holding and filing of histological and cytological specimens for microscopic and macroscopic examination; microtomes and microtome blades; ultramicrotomes and ultramicrome blades, diamond knives, glass knives, glass breaker for preparing glass knives; tissue cutting tools and micro and macro tissue grossing stations for laboratory use; fume hoods for specimen preparation; microscopic slides and cover glass; specimen embedding cassettes; specimen embedding stations; slide and specimen cassette electric printers; image analysis devices, namely, scanners; electronic image recording, image storing and image representing devices, namely, digital cameras; reading devices and writing devices for codes of multiwell plates, cassettes, slides, sample carriers, namely, bar-code scanners , storing and transporting devices, namely, blank hard drives for computers; computer operating software for image analysis and image storage devices, namely, digital cameras; software operating for histological and cytological scientific and diagnostic apparatus and laboratory equipment; computer software for digitizing microscope slides for viewing, integration with other data, management, and analysis, all in the fields of virtual microscopy, digital pathology, digital hematology and medical information technology; automated digital scanning system integrating optical microscopy, motorized sample positioning, digital image capture, data processing, manipulation and display for use in scanning and digitizing microscope samples in research and clinical environments; digital slide information management software for digitizing entire glass microscope slides into diagnostic quality images displayed in context with reports, case histories and other associated documents, cross-linked and concurrently viewable for use in the fields of virtual microscopy, digital pathology, digital hematology and medical information technology.

(4) Medical apparatus, namely, histopathology instruments, tissue processors and haematology instruments, diagnostic medical apparatus and instruments, namely, apparatus for performing immuno-histochemistry and in situ-hybridisation staining reactions, and histological and pathological staining; apparatus for promoting and controlling reaction on microarrays and under slide covertiles.

SERVICES

(1) Maintenance and repair of pathology and clinical laboratory apparatus; maintenance and repair of computer operated automation systems for laboratory instruments; maintenance and repair of scientific, fine mechanical, optical, electronic apparatuses and devices, namely, computer operating software for image analysis and image storage devices, namely, digital cameras.

(2) Creation of computer programs for the data processing of scientific, optical and electronic apparatuses and devices in the field of medical analysis, diagnosis and research, namely, diagnostics; creation of computer programs for use in providing data processing for scientific, diagnostic, research and laboratory purposes for use in microtomes, ultramicrotomes, cryomicrotomes, cryostats, macrotomes, cryomacrotomes, telepathology devices, automatic slide scanners, laboratory devices for histology and cytology, namely, coverslipping machines for slides, tissue infiltration devices, tissue embedding machines, staining machines, staining machines with immunological responses, contrasting machines, glass knife breakers, high-pressure freezing devices for microscopic sample preparation, and sample carriers for microscopic preparations; scientific consultation, namely, technical advice for scientific and medical institutions with respect to the application of scientific, diagnostic, research and laboratory optical and electronic apparatuses and devices, not to include medical consultations.

GOODS

(1) Electric welding machines; electric drills [hand-held]; power-driven hand-held tools; moulds and dies for metal-forming; electric arc welding machines; metal cutting machines (by arc, gas or plasma); laser welding machines; concrete construction machines; elevators; escalators; moving walkways (in the nature of escalators); filtering machines for chemical processing; printing and bookbinding machines; semiconductor manufacturing machines and systems; blades for hydraulic turbines; hydraulic turbine runners; hydraulic turbines and their fittings; blades for wind turbines; wind turbines and their fittings; turbines for power generation; electric compressors for machines; electric pumps for domestic use; automatic stamping machines; vending machines; dish washing machines for household purpose; washing machines for household purpose; washing machines which have functions of network connection, remote control and download of contents; vacuum cleaners; vacuum cleaners which have functions of network connection, remote control and download of contents; electric food blenders; noodle making machines for household purposes; electric meat mixers for household purposes; meat mincers [machines] for household purposes; electric can openers; electric juice extracting machines; electric coffee mills; electric coffee blenders; automated coffee mills and coffee blenders; knife sharpener machines; electric polishers for floorings; electric food processors; lawnmowers; electric door openers; waste compacting machines; waste crushing machines; starters for motors and engines; electric AC motors and DC motors for machines; solar AC generators and alternators; AC generators and alternators; solar DC generators; DC generators; dynamo brushes; electrodes for electric welding; electric ice cream makers for household purposes; electric rice-cake making machines for household purposes.

(2) Ozonisers (ozonators); electronic engine control apparatus for automobiles; cash registers; coin counting and sorting machines; automated teller machines [ATM]; electric sign boards for displaying target figures, current outputs and the like; photo-copying machines; time and date stamping machines; time clocks [time recording devices]; punched card office machines; voting machines; postage stamp checking apparatus; fire alarms; gas alarms; game programs for arcade video game machines; simulators for the steering and control of vehicles; DNA chips; DNA testing

apparatus; flash guns for photographic purposes; flash lamps for photographic purposes; cameras; magnifying glasses; water quality measuring apparatus, namely, water quality measurement instruments; skin analyzers for use in identification of a variety of skin conditions; testing equipment for semiconductors; X-ray and gamma-ray thickness gauges; gamma-ray level gauges; sensors and regulators for room temperature, room humidity, room pressure, air quality, security, intrusion detection, elevators, fire and smoke; electrical outlets; electric transformers; inverters; induction voltage regulators; circuit breakers; electrical switches; plug boards; lightning arresters; electric relays; electric converters; electrical resistors; static power capacitors; leakage circuit breakers; switch boxes; automatic voltage stabilizer; vacuum circuit breakers; electric light switches; light dimmers; rotary converters; phase modifiers; uninterruptible power supply (UPS); storage rack for batteries; general purpose battery chargers; DC power supplies; AC power supplies; electric power converters; electrical devices and electrical power distribution products, namely, commutators, contactors, current limiters, electric contacts, electric collectors, electric conductors, electrical connectors, electrical controllers, electric stabilizers, electric inductors, electric power supplies, electricity distribution boards and boxes, electricity distribution consoles; climate control systems consisting of digital thermostats for heating, cooling, ventilation and drying control; photovoltaic panels; power conditioners for photovoltaic power generation; photovoltaic power generators and their parts; computer software and hardware for use with smart grid applications having functions of energy load management and control, energy theft detection and control, monitoring and diagnostic of electrical grid, electric power outage management and control, fault detection, network asset management, operation and maintenance of electric grid; electricity router for managing and optimizing energy loads within a building; electric power supplies for monitoring, namely electric power supplies for voltmeters, ammeters, voltage stabilizers and current controllers; regulating, controlling, signaling and monitoring apparatus for heating, cooling, ventilation and air conditioning, namely, computer hardware for building automation systems which electrically control building heating, cooling, ventilation and air conditioning, computer hardware and software which remotely control heating, cooling, ventilating and refrigerating equipment; dry cells; electrical energy accumulators; photovoltaic cells; general purpose rechargeable batteries; photovoltaic cells; fuel cells; electric power meters and electric energy meters which have tele-communication functions via telecommunication line and interactive tele-communication functions; electric power meters and electric energy meters which have tele-communication functions via telecommunication line and interactive tele-communication functions; electricity meters; watt hour meters; electric leakage detectors; oscilloscopes; electric quantity meters namely electric power meter and electric energy meter, gas meters, water meters, electric voltage meters, electric current meters, all of which have tele-communication functions via telecommunication line and interactive tele-communication functions; electric quantity meters namely electric power meter and electric energy meter, gas meters, water meters, electric voltage meters, electric current meters, all of which have tele-communication functions via telecommunication line and interactive tele-communication functions; electric wires and cables; electric buzzers; telephone sets; mobile phones; battery chargers for mobile phones; telephone exchangers; inter-phones; transceivers; AC adaptors; television receivers (TV sets); television receivers for household purpose which have functions of network connection, remote control and download of contents; television transmitters; television cameras; closed circuit television cameras; closed circuit television monitors; radio receivers with clocks; car radios; radio receivers; radio transmitters; broadcasting machines and apparatus, namely digital semi-conductor memory packs and digital semi-conductor memory recorders and players; facsimile machines and their parts; tape recorders; radio cassette tape recorders; record players; digital audio recorders, namely, digital audio tape recorders; digital audio integrated circuit recorders; digital audio DVD recorders; DVD players; DVD recorders; DVD drives; video tape players; video tape recorders; video disc players; video disc recorders; digital video disc players;

digital video disc recorders; hard disc video recorders; digital photo frames; surveillance cameras; digital cameras; video cameras; digital video cameras; audio amplifiers; microphones; headphones; equalizers; public-address systems and instruments; CD players; CD players combined with radio tape recorders; loudspeakers; computer software and hardware for use with smart grid applications , namely, software having functions of energy load management and control and a wireless home energy monitors having functions of collection and storage of data on household electricity consumption; smart phones; personal digital assistants having functions of internet connection, sending and receiving of e-mail, and video and data information; personal digital assistants; liquid crystal display monitors for televisions and computers; LED (light emitting diode) displays; liquid crystal displays; LCD (liquid crystal display) projectors; kiosk terminal; coin-operated printers for digital cameras; ticket dispensers; electrostatic copying machines; scanners for computers; printers , namely, computer printers, inkjet printers, laser printers, optical printers; printers for digital cameras; personal computers; mobile computers; notebook computers; computers; printers for use with computers; card readers for use with computers; displays for computers; display monitors for computers; keyboards for computers; mice for computers; speakers for computers; computer interface cards; integrated circuit card readers and writers; integrated circuit memory card readers and writers; word processors; machines and apparatus for POS (point-of-sale) systems and their parts and accessories, namely, terminals, barcode readers, optical readers, liquid crystal displays, electric luminescent display panels, keyboards, printers, scanners, computers, drawer, computer software for use in database management, for use as a spreadsheet and for word processing, all for POS systems; barcode readers; barcode printers; RFID (radio frequency identification) readers and writers; X-ray non-destructive testing units; ultrasound non-destructive testing units; X-ray tubes; X-ray image intensifiers; microwave tubes; power grid tubes; vacuum tubes; electron tubes for amplification of large electricity; electron tubes for oscillating high frequency wave including microwave and millimeterwave; radiation detectors; electron tubes; semiconductors; integrated circuits; printed circuit boards; hard disc drives; USB (universal serial bus) memories namely, USB (universal serial bus) flash drive; SSD (solid state drive); integrated circuit memory cards; magnetic tape units for computers; electronic circuits; computer hardware and computer programs for medical diagnostic and therapy apparatus; computer hardware and computer programs for managing patient information in hospitals; computer hardware and computer programs for accounting in hospitals; computer hardware and computer programs for managing information in hospital; computer hardware and computer programs for managing electronic medical image (Picture Archiving and Communication System [PACS]); computer hardware and computer programs for surgery video image management; computer software for operating and managing control of heating, cooling, ventilating, air-conditioning and refrigerating installations; computer servers; computer servers and their parts; computer network servers; computer hardware for storage of data; computer hardware; magnetic cores; resistance wires; communication satellites; observation rockets; spectacles (eyeglasses); consumer video games; electronic circuits and CD-ROMs recorded automatic performance programs for electronic musical instruments.

(3) Biochemical analyzers for medical purposes; X-ray CT apparatus for medical purpose; diagnostic ultrasound apparatus for medical purpose; diagnostic X-ray apparatus for medical purpose; magnetic resonance imaging apparatus (MRI); nuclear medicine diagnostic imaging apparatus; diagnostic imaging apparatus for medical purpose; ultrasonic therapy machines and apparatus; radiation therapy apparatus and instruments; endoscopes; endoscopes for medical purposes; analyzers for sleep patterns; monitors for sleep patterns; apparatus for analyzing, monitoring, measuring sleep patterns and sleeping time; beds, specially made for medical purposes; soporific pillows for insomnia; pillows for medical purpose; surgical lamps; walking aids for medical purposes; crutches; electric massage apparatus for household purpose, namely, facial massagers; gum massagers; massage chairs; massage gloves.

(4) Recuperators for chemical processing; steamers for chemical processing; evaporators for chemical processing; distillers for chemical processing; heat exchangers for chemical processing; industrial furnaces; nuclear reactors (atomic piles); solar furnaces; industrial boilers [other than parts of prime movers and engines]; air-conditioning apparatus for industrial purposes; heat pumps; freezers; refrigerating and freezing showcases; refrigerating machines; ice machines; freezing machines; electric hair dryers; electronic facial steamers; electric hair steamers; industrial dish drying machines; dish disinfectant apparatus for industrial purposes; waste water treatment tanks for industrial purposes; septic tanks for industrial purposes; solar water heaters; water purifiers for household and industry purposes; electric bulb sockets; lamp reflectors; infrared lamps (other than for medical use); incandescent lamps; halogen lamps; neon lamps; sealed beam lamps; beam lamps; fluorescent lamps; projector lamps; xenon lamps; iodine lamps; metal halide lamps; LED lamps; miniature lamps; car lights; torches for lighting; fittings for incandescent lamps; electric lamps; indoor and outdoor lighting fixtures; light emitting diode (LED) modules, lamps, and lighting fixtures; floodlights; spotlights; freestanding lamps; garden lights; street lights; headlamps; sun lamps; recess lighting, namely, downlights, built-in floor lights, wall lights and ceiling lights; electric light switches; electric lamps and electric lighting fixtures; electric radiant heaters for household purposes; Japanese electric warming pans; electric hot air heaters for household purposes; room air conditioners for household purposes; electric fans; electric room air purifiers; electric ventilating fans; electric humidifiers; electric dehumidifiers; electric blankets; water heaters for household purposes; storage type water heaters for household purposes; electric cooking ovens for household purposes; microwave ovens; electric toasters; immersion heaters; electric refrigerators for household purposes; electric freezers for household purposes; electric rice cookers; electric hot plates for cooking; electric steam cookers; electric baking machines for household purposes; electric pots; electric pans; electric coffee percolators; electric egg cookers for household purposes; electric popcorn cookers for household purposes; electric hamburger cookers for household purposes; electric waffle cookers for household purposes; electric yogurt makers for household purposes; electric pressure cookers for household purposes; electric water coolers for household purposes; electric driers for clothing for household purposes; ionizers for treatment of air for household purposes; electric foot warmers; soup makers; air-conditioners, refrigerators, rice cookers, microwave ovens and electric cooking ovens, all which have functions of network connection, remote control and download of contents; gas lighters; gas ovens; gas tables; non-electric cooking heaters; kitchen worktops; kitchen sinks; household tap-water filters; bath tubs ; toilet stool units with a washing water squirter; waste water treatment tanks for household purposes; septic tanks for household purposes; disinfectant dispensers for toilets; toilet bowls; seatings for use with Japanese style toilet bowls.

(5) Motors for railway rolling stock (not including their parts); transmissions for railway rolling stock; transmissions for land vehicles; AC motors and DC motors for land vehicles [not including 'their parts']; locomotives; tramcars; monorail cars; bogies for railway cars; railway rolling stock and their parts and fittings; trolley buses; electric cars; automobiles and their parts and fittings.

SERVICES

(1) Construction of power plants; construction of power transmission, transforming and distribution facility; general building construction works; plumbing; installation of medical machines and apparatus; demolition of buildings; installation, repair and maintenance of photovoltaic power generators; operation, check and maintenance of building equipment; repair of bicycles; maintenance of bicycles; repair and maintenance of automobiles; repair and maintenance of railway rolling stock; repair and maintenance of two-wheeled motor vehicles; repair and maintenance of cinematographic machines and apparatus; repair and maintenance of photographic machines and apparatus; repair and maintenance of elevators; repair and maintenance of escalators; repair and maintenance of fire alarms; repair and maintenance of office machines and apparatus; repair and maintenance of air-conditioning apparatus; repair and maintenance of boilers ; repair and maintenance of freezing machines and apparatus; repair and maintenance of computers; repair and maintenance of consumer electric appliances; repair and maintenance of electric lighting apparatus; repair and maintenance of power distribution and control machines and apparatus; repair and maintenance of power generators; repair and maintenance of electric motors; repair and maintenance of laboratory apparatus and instruments; repair and maintenance of medical machines and apparatus; repair and maintenance of printing and bookbinding machines and apparatus; repair and maintenance of chemical processing machines and apparatus; repair and maintenance of metal working machines and tools; repair and maintenance of industrial furnaces; repair and maintenance of nuclear reactors (atomic piles); repair and maintenance of solar furnaces; repair and maintenance of integrated circuits manufacturing machines and systems; repair and maintenance of semiconductor manufacturing machines and systems; repair and maintenance of machines and apparatus for lumbering, woodworking, and veneer and plywood making; repair and maintenance of equipment for charge station in which it aims to charge two-wheeled motor vehicles using rechargeable battery, equipment for charge station in which it aims to charge automobiles using rechargeable battery and equipment for charge station in which it aims to charge bicycles using rechargeable battery; repair and maintenance of gasoline station equipment; repair and maintenance of mechanical parking systems; repair and maintenance of dish washing machines for industrial purposes; repair and maintenance of cooking apparatus for industrial purposes; repair and maintenance of vending machines; repair and maintenance of power-driven floor cleaning machines; repair and maintenance of machines and apparatus for use in beauty salons and barbers' shops; repair and maintenance of water pollution control equipment; repair and maintenance of water purifying apparatus; repair and maintenance of waste compacting machines; repair and maintenance of waste crushing machines and apparatus; repair and maintenance of nuclear power plants; repair and maintenance of chemical plants; repair and maintenance of power plants; repair and maintenance of non-electric cooking heaters; repair of toys and dolls; repair and maintenance of bath fittings; repair of toilet stool units with a washing water squirter; repair of spectacles; sterilization of medical machines and apparatus; rental of car-washing apparatus; rental of electric washing machines; rental of laundry dryers; rental of spin dryers for clothes.

(2) Electronic mail services; providing Internet chatrooms for social networking; providing access to computer networks; rental of access time to global computer networks; providing information of television broadcasting, cable television broadcasting and radio broadcasting; providing information of program listing for television broadcasting, cable television broadcasting and radio broadcasting; news agencies.

(3) Architectural design; geological surveys and research; designing of computers, designing, namely, product designing; industrial design; packaging design; graphic arts design; design of interior decor; computer software design, computer programming, and maintenance of computer software; technical advice relating to performance, operation, of computers, automobiles; research on building construction and city planning; testing and research on prevention of pollution; testing and research on electricity; rental of computers; configuration, installation, extension of function, change of function, addition of function, optimization of functions of computers; research, advisory, consultancy and information provision relating to configuration, installation, extension of function, change of function, addition of function, optimization of functions of computers; providing Internet search engine; providing Internet search engine information; rental of computer server storage area (memories) for sharing electronic information, electronic data, image data, and other digital contents over Internet; rental of computer server storage area (memories) for social networking and provision of information related to social networking; rental of computer server storage area (memories); rental of a database server; application service provider (ASP) featuring software for database management; hosting computer sites [web sites]; consulting services in the field of hosting computer software applications; rental of storage area of servers on the Internet; rental of storage area of computers; rental of educational software featuring instruction in employee training via the Internet; design, programming, configuration, maintenance, installation, extension of function, change of function, addition of function and other optimization of computer programs; investigation, advice, consulting and provision of information related to design, programming, configuration, maintenance, installation, extension of function, change of function, addition of function and other optimization of computer programs; fault diagnosis and virus inspections of computer programs; investigation, advice, consulting and provision of information related to fault diagnosis and virus inspections of computer programs; remote monitoring of computer system and computer programs; design, programming and maintenance of computer systems, communication network systems, and information processing systems; investigation, advice, consulting and provision of information related to design, programming and maintenance of computer systems, communication network systems, and information processing systems; providing non-downloadable computer programs via the Internet; providing security for public, private and hybrid software; providing computer programs for medical diagnostic and therapy apparatus; providing computer programs for patient information management, accounting, hospital information management; providing computer programs for medical diagnostic image processing apparatus; providing computer programs for health care; providing computer programs for health clinic; providing computer programs for health guidance; providing computer programs for surgery video image management; providing computer programs for electronic medical records; providing temporary use of on-line non-downloadable computer programs and computer software; duplication of computer programs; providing computer programs; rental of computer programs; rental of laboratory apparatus and instruments.

(4) Beauty salons; hairdressing salons; beauty consultancy; consultancy in the field of body and beauty care; providing medical information; physical examination; dental clinic services; preparation and dispensing of medication; health counselling; collection and analysis of bio-information for medical purposes; dietary and nutritional guidance; provision of health care information by collection and analysis of data relating to height, weight, blood pressure and body fat for the purpose of health and diet; rental of medical apparatus and instruments; rental of apparatus and instruments for use in beauty salons and barbershops; rental of lawnmowers.

Trademark Description

The trade-mark consists of the colour purple as applied to the whole visible surface of the particular cap shown in the drawing. The Trade-mark is also two-dimensional and consists of a crest, the number 1800 appearing below the crest and the word MILENIO appearing below the number 1800. The design elements of the crest are as follows: 4 seperate design elements encircle a shield shape. The shield itself is separated into three sections with the upper section consisting of half of the shield and the number 1800 appearing in this upper section. The lower curved section of the shield is separated into two halves with a fanciful cross design appearing on the left hand section and the letters JB appearing in stylized form in the right hand section. On either side of the shield shape is a wreath of leaves which curve to form a broken semi circle on either side of the shield. Above the shield and between the two wreaths is a pyramid design that consists of three small squares at the top followed by four (4) rows of three (3) progressively widening squares, wherein the first square in the series of 3 is black, the second is white and the third is black. The white squares in each of the 4 rows are all the same width which is the same width as the total width of the three squares appearing in the top row of the pyramid. Beneath the crest design, forming the lower section of the design encircling the shield is a ribbon containing the words 'Trabajo Pasion Honestistad'.

Trademark Description

Correspondences is a colour-sound wheel where elements, zodia signs, planets, and Hebrew letters have been placed. Colour and Sound notation is also present. It shows the various relationships between colour, sound, elements, zodiac signs, heavenly bodies and Hebrew letters. Six concentric circles make up the wheel, with each circle divided into twelve sections of different colours. The innermost circle has elements, 2nd circle has heavenly bodies, 3rd circle zodiac signs, 4th circle Hebrew letters, 5th circle colours, and the outer circle has the musical notes. The 1st cirlce elements represent fire, air, water and earth. The 2nd circle heavenly bodies represent mercury, venus, mars, moon, saturn, jupiter and sun. The 3rd circle zodiac signs represent Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces. The 4th circle contains Hebrew letters. The 4th and 6th cirles contain colours and musical notes.

Colour Claim
